

Premier Home Care

is dedicated to reducing hospital stays and keeping you safe in your home.

A Guide for Patients:

Home Care encompasses a wide range of health and social services delivered in the privacy of your home.

Home Care is appropriate if you prefer to stay at home but need ongoing medical care that cannot be provided by family and friends.

Our team of highly skilled professionals work in conjunction with your physicians to ensure your safety and well being while improving your quality of life.

Premier understands that coming into your home is a privilege and that we must earn your trust. All employees undergo a complete review of references, credentials, and background screening.

Our Services Available:

Registered Nurses provide a variety of highly skilled nursing services as directed by the patient's physician. Our registered nurses teach and advise the patient and family members as well as coordinate treatment plans.

Physical Therapy provides education and treatment for patients experiencing neurological, bone or muscular disorders. Physical therapists develop a personalized and consistent rehabilitation program to ensure faster recovery.

Occupational Therapy provides activities and instruction designed to increase safety and independence with daily activities in your home.

Speech Therapy provides rehabilitation services for patients with communication and swallowing disorders.

Medical Social Work provides resources within the community such as Meals on Wheels, application for financial assistance, and long-term care planning.

Home Health Aides are trained and certified health care workers who provide assistance to patients with personal care.

Wound Ostomy Certified Nurses are Registered Nurses with a special certification in wound and Ostomy care. Credentialed WOC Nurses have successfully met rigorous criteria and passed a national board examination to be certified in the area(s) of wound, ostomy, and/or continence nursing.
